Summary

Eero Siljander has long experience (since 2015) as Power BI and Azure Data Engineer / Data Scientist in various projects. He is Microsoft certified Azure Administrator Associate including Azure AI Fundamentals, Azure Data Fundamentals and Azure Fundamentals. He is also Microsoft Certified in Security, Compliance and Identity Fundamentals.

Most recently in Autumn 2022 he has worked as a Data Analyst at City of Helsinki, before that he worked as a Cloud Solution Architect in Sandvik Group and Valmet using PowerBI, PowerQuery and DAX to build visualization dashboards and reports. He has worked as an IT specialist at National Supervisory Authority for Wellbeing and Health (Valvira) where he has used PowerBI and PowerQuery in the Information Management system implementation project.

Eero has excellent knowledge of Finnish and English languages and fair command in Swedish language. He is good team player and convincing in his interactions. He holds a Licentiate degree in Econometrics. Eero has IPMA D project work certificate and has attended plenty of technology certifications and courses.
